Note 1 - New performance measures to reflect the modernised cloud-delivered information technology systems.

MFAT uses a mix of cloud and on-premise systems to get the benefits like flexibility and scalability, while keeping control and security of its own infrastructure.

The first measure is focused on making the on-premise virtualisation system more sustainable. This involves running virtual machines (VMs) on physical servers in our data centres. By using fewer servers for multiple tasks, we save on hardware, energy, and costs. The Ministry tracks sustainability by using appropriate tools, which also gives us a sustainability score to measure our progress towards a greener data centre.

In line with New Zealand's government policy to prioritise cloud services, the Ministry is moving more of its services to the cloud to stay up-to-date and fully supported.

The second measure is about improving cloud performance, reliability, cost, and security. We use a Cloud Adviser score to follow best practices, which helps the Ministry optimise cloud workloads and track progress by prioritising actions that will give the best results.

End of Year Performance Reporting

Performance information for this appropriation will be reported by [agency] in [document to be tabled in the House].

Reasons for Change in Appropriation

This appropriation increased by \$12.625 million to \$92.600 million for 2024/25 mainly due to:

- an increase of \$6.230 million due to the rephasing of expenditure on the Pacific Property Systems project
- an increase of \$4.500 million due to the rephasing of expenditure on the Wellington Head Office Accommodation project
- an increase of \$1.895 million due to the timing of expenditure on the replacement of IT infrastructure hardware.

Reasons for Change in Appropriation

This appropriation decreased by \$8.592 million to \$553.350 million for 2024/25 due to:

- a decrease of \$21.687 million for expense transfers to 2025/26 and 2026/27 due to delays in expenditure outside the Ministry's control on specific and discrete projects
- a decrease of \$14 million for transfers to Non-Departmental Other Expense Support for Ukraine for the provision of support to Ukraine, and
- a decrease of \$45,000 for a transfer to Departmental Output Expense: Policy Advice and Representation - Other Countries PLA to fund a contractual commitment to the Washington Embassy local staff superannuation fund.

These decreases are partially offset by:

- an increase of \$19.013 million for expense transfers from 2023/24
- an increase of \$6.024 million due to higher capital charges and higher depreciation costs following a revaluation of the Ministry's offshore property portfolio
- an increase of \$1.421 million to reflect additional third-party funding resulting from demand from other agencies co-located with the Ministry at overseas posts, and for the provision of departmental services, and
- an increase of \$682,000 resulting from foreign exchange and overseas inflation movements.
