Hon Tama Potaka, Minister of Conservation,
Hon Andrew Hoggard, Minister for Biosecurity
Parliament Buildings
WELLINGTON

Dear Tama and Andrew,

Thank you for your letter of 5 November 2025 requesting an invitation to Budget 2026 for wilding conifer control and to increase the Department of Conservation's (DOC) International Visitor Conservation and Tourism Levy (IVL) allocation for this purpose.

I agree this initiative can be submitted for consideration through Budget 2026. However, in my view, the costs of wilding conifer control have disproportionately fallen on the Crown, and a different approach is needed in the future. The submitted initiative should secure meaningful co-investment from third parties, as with the example in your letter for reef restoration activities in the Hauraki Gulf.

Your submission must comply with the general requirements set out in my letter of 4 November 2025. Including presenting options for funding through reprioritisation across both agencies' baselines and through IVL revenue. It should also include a range of scalable options for delivery.

The submitted proposal should be time-limited and positioned as a bridge to a longer-term approach for this issue. It is therefore my expectation that the Ministry for Primary Industries investigates a National Pest Management Plan (NPMP) as an enduring and fiscally sustainable solution to wilding conifers. An NPMP could draw on the relevant levying powers under the *Biosecurity Act 1993* to seek equitable financial contributions from all relevant parties. I have been advised that an NPMP could take 18-24 months to establish, and funding should only be sought from Budget for this interim period.

I look forward to working with you on a long-term plan for managing this important pest.

Yours Sincerely,

A handwritten signature in blue ink, appearing to read 'Nicola Willis'.
